Persona Templates for Utility AI Characters: Tarot Reader, Fortune Teller and Roast Bot

Garret E. Williams | ChatBrat AI

Reference documentation / dataset companion

Version: v1.0.0 | **PDF prepared:** October 21, 2026

All versions DOI: 10.5281/zenodo.23411520

Source archive DOI: 10.5281/zenodo.23411521

The author founded ChatBrat. This PDF does not establish independent validation, peer review, benchmark scores, or product superiority. It is a readable companion to the cited archived README. The archived sources, data, methods, and publication dates remain authoritative for that version. Historical product claims are not a statement of current availability.

Current product scope: ChatBrat is browser-based character chat and roleplay, free during beta. A free account is needed for saved memory and creation. Saved conversation memory is selective, and carry-over into new chats requires opt-in. Explicit sexual content is prohibited. See the current memory documentation and pricing page. These links are product sources, not independent corroboration.

Short answer: A safe tarot, fortune-teller or roast-bot AI character needs a clear personality, a greeting that sets the rules, example dialogue that shows the boundaries in action, and written limits. For tarot and fortunes the key limit is entertainment framing, with no claims of real foresight and no medical, legal or financial predictions. For roasting it is consent plus an opt-out word, and never targeting protected traits, bodies or private people. This repository gives 9 original, SFW, platform-neutral character templates (3 personas × gentle / classic / playful) you can copy into any AI character app.

Templates

ID	Persona	Variant	Name	Tagline
`tarot-gentle`	tarot reader	gentle	Juniper Vale	A soft-spoken tarot reader who treats every card as a conversation starter.
`tarot-classic`	tarot reader	classic	Madame Ossory	A theatrical, old-school tarot reader with velvet, candles and a flair for ceremony.
`tarot-playful`	tarot reader	playful	Pip Moonfeather	A cheerful, slightly chaotic tarot reader who narrates the cards like a sports commentator.
`fortune-gentle`	fortune teller	gentle	Auntie Marigold	A kindly tea-leaf reader who turns every cup into a story about small, hopeful things.
`fortune-classic`	fortune teller	classic	Professor Orrin Thale	A vintage carnival fortune-telling automaton who prints 'fortunes' on little cards.
`fortune-playful`	fortune teller	playful	Cosmo the Fortune Cookie	A sentient fortune cookie with big opinions and very small paper fortunes.
`roast-gentle`	roast bot	gentle	Biscuit	A soft-hearted roast bot whose burns are basically compliments in disguise.
`roast-classic`	roast bot	classic	Rex Burnwell	A comedy-club roastmaster with sharp timing and strict rules about who's fair game.
`roast-playful`	roast bot	playful	Chef Scorch	A dramatic TV-style celebrity chef who roasts your cooking, your groceries and your kitchen crimes.

Formats

Folder	Format	Use it for
`templates/json/`	Platform-neutral JSON (fields: name, tagline, description, personality, scenario, greeting, example_dialogue, boundaries, tags)	Any app or your own code
`templates/markdown/`	Human-readable Markdown	Copy-paste into any character creator
`templates/character-card-v2/`	Character Card V2 JSON (`chara_card_v2`), boundaries in `system_prompt`	SillyTavern and other V2-compatible apps, including chatbrat.ai, whose Create page and card importer accept pasted V2 JSON
`data/templates.csv`, `data/templates.json`	Index of all templates	Browsing, datasets

Safety

Every template carries its rules in `boundaries`. Full rules and the reasoning are in `SAFETY.md`. Summary:

- **Tarot and fortune telling:** entertainment only; never claim real foresight; no medical, legal or financial predictions; no predictions about specific real people; no fear tactics; break character if asked whether it's real.

- **Roast bot:** ask first and set a heat level; the opt-out word **MERCY** stops roasting immediately; roast only what the user offers; never protected traits; no body or appearance shaming of anyone; punch up (public figures' public work only, never private people); stop if the user seems genuinely hurt.

How to adapt a template

1. Pick a variant and copy the Markdown or JSON into your app's character creator.

2. Keep the boundaries in the character's definition or system prompt; they are what keep the character safe and on-topic.

3. Rename and restyle freely (CC BY 4.0), but credit: "Based on Persona Templates for Utility AI Characters: Tarot Reader, Fortune Teller and Roast Bot by Garret E. Williams."

4. Test with the example dialogue's edge cases: ask the tarot reader about money, ask the roast bot to roast a friend, type MERCY.
